~ PRESIDENTIAL ADDRESS ~

94th Annual Conference
New York State Association
for Food Protection

DOUBLETREE HOTEL

E. Syracuse, NY
September 20, 2017

President James Baldwin preparing to give the “Presidential Address”

Good morning. On behalf of the Executive Board, I would like to take this opportunity to welcome all of you to the 94th Annual Conference of the New York State Association of Food Protection. I would like to once again welcome our Federal regulatory partners who are here attending the 2017 Northeast Food and Drug Administration Regional Milk Seminar in conjunction with the annual conference. Please join me in welcoming any new members and first time attendees with us today (show of hands). Finally, I would like to welcome and recognize all the past presidents of the New York State Association for Food Protection who are in attendance. These individuals each played an integral role in forming and molding the Association into what it is today (would you please stand). I thank you all for taking time out of your busy schedules to attend this year’s conference.

Each year the New York State Association for Food Protection Annual Conference provides an exceptional platform that unites industry, regulatory, and academia in a setting that promotes education and

Cont’d on Page 5

Presidential Address Cont'd

networking opportunities that extend far beyond the conference. I hope everyone is able to exploit both opportunities over the next two days, as we can learn a great deal from one another.

Thank you to all committee chairs and members who have worked very hard and have done an exceptional job selecting topics for this year's educational conference that I'm sure you will find both relevant and educational.

As I have previously eluded to in my newsletter articles over the last year, we have entered "a new and exciting era in food protection, a critical time defined by change for the Food Industry, regulatory, and the Association for Food Protection." As an agent of change, the Association must and will continue to serve as a resource for the Food Industry, regulatory, academia and all other areas of the food continuum. It is the Executive Board's responsibility to position the Association to face these challenges head-on.

As I stated back in November, "We, the Executive Board, will commit to challenging the status quo, by thinking differently and embracing change." I am proud to report that over the last 11 months, your Executive Board has worked very hard at setting a strong foundation based on a vision for the future as we begin to embrace ways to include other areas that make up the critical food infrastructure across the State of New York, such as producers of fresh fruits and vegetables, convenience store and restaurant operators, and many, many more. It is through a broadly diverse and inclusive membership that this Association will continue to remain viable, relevant, and strong for many future generations.

Thank you all for your membership and participation in the annual conference each and every year. As you know, this Association survives on the strength of its membership. That said, I would like to ask each of us in this room to think differently when we leave the conference later this week, think of those with whom we interact with day in and day out who are currently not participating members, and make them aware of the benefits of membership. Consider participation in your local affiliate; affiliates play a key role in education and learning. There is a huge opportunity for this association to continue serving as a resource for learning for many years to come.

Thank you to each and every Executive Board member (Bob Kuhn, Amy Rhodes, Casey McCue, Betsey Bihn, Donna Walker, John Bartell, Dave Bandler, Marsha Koerner, Kathryn Boor, Martin Wiedmann, and last but certainly not least Janene Lucia) for making this past year an extremely rewarding and dynamic experience.

Finally, I wish to thank each and every one of you for making this organization what it is today. Your membership and support is what truly makes this association great! It has truly been a privilege and an honor to serve you on the Executive Board over the last several years, and as the Association's 90th President over the last year.

Thank you for coming and enjoy the conference!

EXECUTIVE SECRETARY'S REPORT

SEPTEMBER 20, 2017

Welcome to the 94th Annual Conference.

Your board of directors met six times during the fiscal year including 2 conference calls to conduct the business of the Association:

September 20, 2016
October/November – Conference Calls
January 6, 2017
April 3, 2017
June 23, 2017

This has been a busy year for the Association. In addition to our regular Association activities/management, and membership renewal work – another strong overall membership campaign was conducted by the membership committee/and board members. The committee spent significant amount time exploring opportunities to expand the Association's individual and sustaining membership base to include a broader spectrum of the NYS Food and Dairy Industries.

As a result – our individual membership numbers increased this year with 25 new individual members. While our sustaining membership number went down slightly, we gained 3 new Sustaining members.

Membership Report	2016	2017	Change
Regular Members	225	245	+ 20
Honorary Life Members	31	34	+ 3
Sustaining Members	72	70	- 2
Totals	328	349	+ 21

Other Activities – Summary

In September, 2016 the 93rd Annual Conference was held at the Doubletree Hotel in E. Syracuse, NY September 20-22 with a final attendance of 166. The Annual Conference Exhibit area had 15 exhibitors.

The Association received \$1,400 in donations from sustaining members & companies in sponsorship of the Annual Conference

events, and an additional \$1,890.00 was raised through a 50/50 raffle and individual member donations – all which went toward the scholarship fund. (Note this amount was up from \$1,545 the previous year)

Two \$1,000 scholarships were awarded in 2016 at the Annual Conference to Phyllis Tinkous, Food Science Technology Major at Genesee Community College, and Daniel Ardelean, a Culinary Arts major at Alfred State College. The two scholarship awardees received an additional \$250 each from Western Association of Sanitarians.

In the spring – the board held its annual “Expanded/Super Conference” board meeting in which the main focus was on the 2017 Annual Conference – detailing the speakers program, and other conference events.

The Association’s 95th Annual Conference will be held at the Doubletree Hotel, Carrier Circle in Syracuse, NY September 18-20, 2018.

To all committees, the executive board, and members, many thanks for your continued support of the Association.

Respectfully Submitted,

Janene S. Lucia

2017 Annual Auditor's Report

The audit committee of the NYSAFP met on September 20, 2017 with Executive Secretary Janene Lucia. We conducted a review of the Annual Treasurer's Report for the year ending August 31, 2017 along with related documents.

The Executive Secretary is proficient in keeping track of income and disbursements throughout the year and makes regular reports to the Executive Board. We commend Janene for yet another fine job.

Upon review, the Audit Committee finds all records to be in order and feel reports represent an accurate reflection of this Association's financial position.

Respectfully submitted,

John Luker

John DiBlasi

2017 Farm Methods Committee Annual Report

The charge of the Farm Methods Committee is as follows:

It shall be the duty of this committee to study, make recommendations, and promote sanitary milk production in New York State; to assist the producers, regulatory agencies and processors in evaluating and solving problems; and to further the establishment of uniform requirements and interpretations consistent with the sanitary requirements in other northeast states. It shall also be the duty of this committee to select the recipient of the annual Dr. Theodore H. Reich Memorial Award for presentation at the annual conference.

The Dairy Farm Methods Committee met in February to discuss current issues in farm sanitation, review the 2016 NYSAFP Conference and plan for this year's field session. This year's topics are very relevant to our industry and this year's Theodore Reich award winner is a truly deserving candidate.

We are glad to welcome Deb Lampson with Upstate Niagara to the committee. She is replacing Mike Davis and brings a lot of technical experience. We would welcome new members. If anyone is interested in serving on the committee, please feel free to contact me.

Thank you to the Farm Methods Committee and this year's conference speakers and attendees for giving time to support and improve our industry.

Donna Walker

2017 Food Committee Report

The Food Committee is looking forward to another successful Food Session on Thursday, September 21, 2017 to explore and evaluate the food protection activities in New York State and beyond.

I would like to acknowledge the members of the 2017 Food Committee: Dr. Robert Gravani, Joe Corby, Carl LaFrata, Kathleen O'Donnell-Cahill, Dr. Kathryn Boor, John Luker, Jim Baldwin, Darby Greco, Gretchen Wall and William (Bill) Kalabanka.

This year's session will begin with Mr. Jeff Williams, Director of Public Policy for the New York Farm Bureau, who will be discussing the challenges of obtaining skilled domestic and foreign workers on farms.

Dr. Carmen Moraru, Associate Professor in the Department of Food Science at Cornell University, will then share information about new advances in nanotechnology and food, including advances, benefits, and risk assessment.

Our third invited speaker for the session was Dr. Betsy Bihn, Director of the Produce Safety Alliance and new Institute for Food Safety at Cornell University (IFS@CU). She will discuss how the Institute will help meet the current and future training and research needs for New York State food producers and beyond.

Lastly, Mr. David Nicholas, from the New York State Department of Health, will provide an update on foodborne illnesses.

The Food Committee also has the important task of selecting a candidate to receive the William Hickey Memorial Award each year. This year, the committee unanimously chose an extremely well-qualified candidate to receive the award. Join us for Thursday's session to congratulate the awardee!

The Food Committee is also looking to diversify and expand its current membership and activities. Through a committee survey, suggestions were provided to further engage the food industry about NYSAFP and in particular, the activities and benefits of participating in the NYSAFP Food Committee.

Input included:

- Send out informational mailings to presidents, food safety managers, and other high level professionals at larger food store chains and food processor organizations to gain interest and participation in NYSAFP.
- Focus on subject matter during the annual Food Committee session that might entice colleagues from the local Departments of Health.
- Pair the annual meeting with training opportunities that could attract additional members and participation. This might help attract a more diversified audience, for example, fruit and vegetable growers, if there were relevant training opportunities that might attract them to attend the annual meeting.
- Invite a local food producer to join the Association and Food Committee.
- Reach out to food producers who might not have previously been the target

audience of NYSAFP. For example, convenience stores that are handling more ready-to-eat foods or other retail establishments that are untapped.

- Coordinate with the NYSAFP Membership Committee to attract a wider audience and provide value through utility. Inviting various industry sectors will help NYSAFP members gain valuable insight into continuous food safety improvement as well as future opportunities statewide.

Gretchen L. Wall

Food Committee Chairperson

Laboratory Committee Report 2017

The Laboratory Committee had an active year. In March the committee held an in-person meeting in Syracuse. Discussed at this meeting were ideas for the laboratory session of the 2017 New York State Association for Food Protection annual meeting as well as nominations for the Howard B. Marlatt award. Not all members of the committee were able to attend the meeting so several conference calls and emails were used for communication between committee members on these matters. The committee worked towards a consensus on the topics for this year's annual meeting and decided on the following: New Farm and Cheese Plate Management Analytical Tools using Mid-Infrared Analysis, FDA/NYS Dept. Agriculture and Markets Food Lab Mutual Reliance Agreement, Pathogen Testing in the Age of Molecular Diagnostics, and Anatomy of Foodborne Illness Outbreak Investigations: Observation from NY State Dept. of Agriculture and Markets. The Thursday morning Laboratory session promises to be very informative and the committee is excited about this agenda.

Follow-up conference calls and emails were also used to select this year's Marlatt award winner. This year's winner is a deserving member of the laboratory community and the committee is eager to award her this honor.

The Regional Laboratory Seminars, held in conjunction with Cornell University and NYS Department of Agriculture and Markets, were continued as a helpful resource to the laboratory community throughout New York State. Topics covered at this year's seminars included an update on the NY State Proficiency/Split Sample Program, Appendix N Pilot Program, and Coliform and *E. coli* Testing for Products and Water Supplies. Seminars were well attended with an estimated total of 133 attendees which is an increase in the number of attendees from last year.

I would like to thank all the members of the Laboratory committee for their participation in this year's committee. I look forward to the upcoming year and working with these outstanding laboratorians.

Respectfully submitted,

Cynthia Mangione

The International Association for Food Protection held its **ANNUAL MEETING** July 9-12 in Tampa, Florida

The International Association for Food Protection (IAFP) held its 2017 Annual Meeting July 9-12 in Tampa, Florida. The Association again broke meeting attendance records with more than 3500 registered attendees and 262 exhibitors. Membership is also up with over 4400 paid members. With over 1000 presentations and poster sessions, it was again hard to pick and choose which presentations to attend with all of them having significant relevance in our current food safety environment. Highlights included the opening Ivan Parkin lecture from Jose Emilio Esteban, Science Advisor for the United States Department of Agriculture (FSIS-OPHS-EALS) and closing John H. Silliker lecture from Steve Taylor, Professor and Co-Director, Food Allergy Research & Resource Program Department of Food Science & Technology University of Nebraska.

At the affiliate breakfast a roundtable discussion on “How can we help smaller processors” resulted in numerous suggestions including: Make sure the IAFP website is a link on our webpage; connect with universities or trade groups to sponsor trainings/learnings; have different ways to get the information out such as webinars, small meetings (with other activities such as meals, tours, etc.), full day with multiple topics and speakers; and provide links to organizations such as DMI, DPC, IDFA, etc.

The 2018 Annual Meeting of the IAFP will be held July 8-11 in Salt Lake City, Utah. For more information on the IAFP Annual Meetings or IAFP membership, go to: <http://www.foodprotection.org>.

At each year’s annual meeting, IAFP presents selected Affiliates with awards recognizing their achievements in promoting the mission of the parent association and food safety.

The overall recipients of the 2017 Affiliate Awards were:

C.B. SHOGREN MEMORIAL AWARD

Food Safety Consortium (Hong Kong)

BEST AFFILIATE OVERALL MEETING

Mexico Association for Food Protection

BEST MEMBERSHIP EDUCATION

British Columbia Food Protection Association

BEST AFFILIATE COMMUNICATION MATERIALS

Florida Association for Food Protection

AFFILIATE MEMBERSHIP ACHIEVEMENT

Minnesota Food Protection Association

For more information on IAFP’s awards, meetings, activities and membership go to: <http://www.foodprotection.org>

2017 Newsletter Report

There were three (3) issues of the New York State Association of Food Protection NEWSLETTER published during the past year: January Annual Report, July and November.

At this time, I would again like to thank those individuals (reporters) who regularly contribute affiliate and statewide news items and pictures. Your continued support will be most appreciated.

This year in March began my 42nd year as your NEWSLETTER Editor.

John R. Bartell, NEWSLETTER Editor

Resolutions Committee

RESOLUTIONS IN MEMORY OF DECEASED MEMBERS

WHEREAS, it is with deep regret and sorrow for their passing that this association pays special tribute to several departed members of the International and State Associations who have passed on since our last meeting.

BE IT RESOLVED, that the New York State Association For Food Protection extend to the families our sincere sympathy and appreciation for their contribution in the field of sanitation and improvement to our way of life, and

BE IT FURTHER RESOLVED, that the names of the deceased be attached and constitute a part of this resolution.

Henry V. Atherton • Dwayne L. Lipinski • Alfred R. Place

David Bandler, Chairperson
September 20, 2017

Resolution in Response to Change

WHEREAS, Change is inevitable, *and,*

WHEREAS, Presidents of the Association have come and gone, (and to date there have been 90 of them), *and,*

WHEREAS, the Executive Secretary is the cement that holds the Association together...and there have been only nine of them! *and,*

WHEREAS, the current Executive Secretary has served 27 recent presidents...Many of them good, some not so good. (There is a list!) *and,*

WHEREAS, the current Executive Secretary has successfully provided the leadership and effort needed to keep the NYSAFP in the forefront of Food Protection. (Not only as secretary but also as treasurer and meeting planner) *and,*

WHEREAS, the current Executive Secretary has decided to retire after 27 years in that position. (The longest serving in our 94 year history) *and,*

WHEREAS, The Executive Board has voted unanimously to create a special award, recognizing this awesome accomplishment.

THEREFORE BE IT RESOLVED, that JANENE S. LUCIA be recognized and applauded for her 27 years of continuous service, with the first ever New York State Association for Food Protection...LIFETIME ACHIEVEMENT AWARD.

Presented at the 94th Annual Conference

2017 (Fiscal Year 2016-2017) NYSAFP Scholarship Committee Report

The scholarship committee would like to thank everyone for their continued support.

At the beginning of March 2017 notices of the availability of scholarships were sent out to Niagara County Community College, Cornell University, Genesee Community College, Alfred State College, Alfred University, Cobleskill College, SUNY Delhi, SUNY Morrisville, SUNY Canton and the various NYSAFP Affiliates.

We received 6 applications:

- 2 Genesee Community College
- 1 Alfred State College
- 1 Erie Community College
- 2 Cornell University

The selection committee agreed to award scholarships to 3 applicants this year. The NYSAFP Board voted unanimously to support this decision.

The winners were:

- Christopher Sweeney, an Animal Science major with a concentration in Dairy Science from Cornell University
- Katherine Erdle, a Veterinary Technology major at Genesee Community College
- Taylor Hemenway, an Agricultural Business major at Alfred State

The balance on hand as of 8/31/17 was \$7,696.50. At our 2016 Annual Conference we raised \$1185 through raffles, plus \$705 from registration donations. Also at the 2016 Annual Conference, we paid out \$2,500 to our scholarship recipients (\$1,000 each from NYSAFP, and \$250 each from Western Association of Sanitarians).

This year (2017-2018) three scholarship recipients have been selected and each recipient will receive a total of \$1,250 – \$1,000 each from the NYSAFP scholarship fund, and an additional \$250 each donated from the Western Association of Sanitarians.

Thank you again to all affiliates, individuals and companies who have supported the scholarship fund. The committee and the recipients are very grateful.

Respectfully submitted,

Robin Waite
Chairperson

INNOVATIONS IN MILK HAULING

Bob Fradette, Agri-Mark Inc., Transportation Coordinator

As the Transportation Coordinator for Agri-Mark Inc., it was an honor for me to speak at the NYSAFP Annual Conference. My presentation was on "Innovations in Milk Transportation" with the following three areas as my main subject matter:

1. The first innovation is "Tankers with No Top Manholes." These tanks have a side silo manhole inside of a box. This box is in the middle of the tank on driver's side. These tankers are used on direct load farms. We currently have approximately 25 of these tanks being utilized. Milk can be sampled via "QMI Ports." All of these tanks have high level alarm probes to alert the producer when the tank is full.
2. The second innovation is "Dual Purpose Tankers." These tankers are designed for both direct load and regular farm pickup. Again, this design of tank has "QMI" ports and high level alarm probes. These tankers are also designed with a ground level locking cable for tanker seals.
3. The third innovation is installing "QMI Ports" on older Agri-Mark tanks that are still in use. This innovation serves two purposes: it keeps drivers at ground level for sampling, and it allows for sampling outside using the proper "SOP's." By sampling outside at the plant, we can speed up milk receiving. Loads can be cleared for antibiotics and quality before entering receiving. With "ELD'S" coming into service for haulers in December, hours of service for drivers will become a very big issue.

In discussing these three areas, we, at Agri-Mark, have the following objectives. We have many large members going direct load which speeds up efficiency. More importantly, we want drivers to stay off the top of tankers for safety purposes. We are moving forward with tank innovations to keep drivers on ground level.

Again, thank you. It was an honor to speak to your group.

Bob Fradette
Agri-Mark Inc.
Transportation Coordinator

ABSTRACT OF PAPERS PRESENTED AT 2017 CONFERENCE

THE ROLE OF LABORATORY IN THE NY STATE RAPID RESPONSE TEAM

Maria Ishida, NY Agriculture & Markets Food Lab

As part of the Integrated Food Safety System program, the Mutual Reliance Pilot program was created by the U.S. Food & Drug Administration (FDA) in collaboration with selected states to improve information sharing. California and Wisconsin's Mutual Reliance Pilots focused on food inspections. New York's Mutual Reliance Pilot focused on the sampling and analysis of food.

New York's Department of Agriculture and Markets (NYSDAM) has a long-standing history of identifying, sampling, seizing and recalling contaminated foods in our marketplace. So in 2016 NYSDAM was selected by the FDA to be part of the Mutual Reliance Pilot. It should be noted that many of the foods seized and destroyed by NYSDAM were imported and so to aid with the removal of such products from the marketplace NYSDAM has relied heavily on FDA's district office to issue alerts on imported foods to prevent such foods from re-entering our marketplace. This effort is very labor intensive and duplicative in nature so the objective of the Mutual Reliance Pilot is to leverage our collective resources, collaborate on compliance and enforcement actions, accept analyses provided by NYSDAM ISO 17025 accredited laboratory and provide constructive feedback that would result in more targeted sampling, analyses and removal of imported products. Since inception of the pilot NYSDAM has submitted ten data analyses packages to the FDA for review and are currently conversing with the FDA regarding the need for timely feedback when such packages are rejected and/or are not used to initiate regulatory action.

THIS YEAR'S TOP FOODBORNE OUTBREAKS: CAUSES AND KEY LEARNINGS

Genevieve Sullivan, Cornell University

With the heightened focus on preventing food safety issues from occurring, it remains important to reflect on the response and causes of foodborne outbreaks that continue to emerge. In reviewing the latest foodborne outbreaks, we can continue learning, allowing us to be better prepared to respond to or prevent future outbreaks.

For foodborne outbreaks, the causes, controls, and consequences associated with each contamination vary greatly, often due to the differences between the implicated pathogens. For example, *Listeria monocytogenes* has a high mortality rate, grows at refrigeration temperatures, and has a long incubation period (time between consumption and illness). These factors are relatively unique to this pathogen, and are critical when reviewing an outbreak.

Five different outbreaks were explored during this presentation, representing five different pathogens. Each outbreak varied in origin and impact, resulting in different key learnings. However, a common theme emerged of getting to the root cause of the issue. It can be fast and easy to simply assume that the obvious issues are the cause of the problem, but the real root of the problem can be unapparent. It's important to review foodborne outbreaks and to keep asking "why," so that we can learn from them, preventing other issues in the future.

ABSTRACTS OF STUDENT POSTER SESSION PRESENTED AT 2017 CONFERENCE

NAME: Shiyu Cai

DEGREE PROGRAM: MS

FACULTY ADVISOR/COMMITTEE CHAIR: Dr. Randy Worobo

POSTER TITLE: Outgraded produce variably retains surface inoculated *Escherichia coli* through commercial washing

ABSTRACT: The use of secondary quality produce has gained attention as a solution to food insecurity in both the U.S. and Europe. The purpose of this study was to evaluate the impact of using secondary quality or outgraded produce on the retention of surface inoculated *E. coli* following simulated commercial washing on four model fresh produce systems (apple, tomato, carrot, lettuce). A three-strain cocktail of generic *E. coli* resistant to rifampicin was inoculated on the intact surfaces of U.S. No.1 grade produce items and damaged or decayed areas of outgraded produce items. Generally, outgraded produce of all four kinds retained significantly higher levels of inoculated *E. coli* following two washing treatments, chlorinated (150 ppm) and water only. Compared to U.S. No.1 quality apples, outgraded apples retained 4.3 ± 1.4 logs CFU/g more *E. coli* following wash water only treatment, and 3.6 ± 1.7 logs CFU/g more following chlorine treatment. Outgraded tomatoes significantly retained 3.5 ± 1.1 logs CFU/g more inoculated *E. coli* following water only treatment and 3.0 ± 1.4 logs CFU/g more inoculated *E. coli* following chlorine washing than U.S. No.1 quality tomatoes did under the same treatment conditions. Outgraded carrots retained 1 ± 1.1 log more CFU/g inoculated *E. coli* following water only treatment and 0.5 ± 0.8 log more CFU/g inoculated *E. coli* following chlorine treatment, compared to U.S. No.1 carrots. Outgraded lettuce leaves retained 1.6 ± 0.5 log CFU/g more inoculated *E. coli* following water only treatment and 4.1 ± 0.4 logs CFU/g more inoculated *E. coli* following chlorine treatment than did U.S. No.1 quality lettuce leaves under the same treatment conditions. Washing with 150 ppm chlorine was not sufficient to eliminate the additional risks from using secondary quality or outgraded produce, and the efficacy of disinfection was greatly affected by type of defect. Produce with bruises or broken skins were labeled as having "Physical Damage," while the

ABSTRACTS OF STUDENT POSTER SESSION PRESENTED AT 2017 CONFERENCE

Continued from page 21

rest were said to have “Physiological Damage.” Apples with physical damage retained significantly higher *E. coli* loads than did those with physiological defects, an additional 2.6 logs CFU/g under chlorine treatment and 0.8 log CFU/g more under wash water only treatment. Tomatoes with physical damage had a 1.3-log CFU/g and 0.6-log CFU/g average increase of retained *E. coli* counts compared to the ones with physiological damage following chlorine and wash water only treatment, respectively. Subsequently, outgraded produce with physiological defects pose less food safety risks if introduced into the fresh market than does that with physical damage. Therefore, as industry considers how to minimize its food waste problem, preferentially directing physically damaged produce away from the fresh market will help to minimize risk while maximizing food resources.

NAME: Anqi Chen

DEGREE PROGRAM: Ph.D.

FACULTY ADVISOR/COMMITTEE CHAIR: Patrick Gibney

POSTER TITLE: Quantitative Fluorometric Assay for the Detection of *Escherichia coli* in Ground Beef Using Engineered Phages

ABSTRACT: Early detection of pathogenic bacteria is significant for the prevention of foodborne pathogen outbreaks. In this study, we focused on the detection of *Escherichia coli* (*E. coli*) based on a quantitative fluorometric assay using genetically engineered bacteriophage (phage). The presence of *E. coli* was indicated by β -galactosidase (β -gal), which converted the substrate 4-methyl-umbelliferyl β -D-galactopyranoside (MUG) into a fluorophore 4-methylumbelliferone (MU). The quantification of fluorophore reflected the existence of β -gal as well as the *E. coli* bacterial cells. T7_{lacZ} bacteriophages were used to recognize and lyse the bacterial cells in order to release the β -gal enzyme; more importantly, they could also overexpress the enzyme to increase the sensitivity of this assay. The proposed method can reach a detection limit of 10CFU/mL in ground beef samples after an incubation of 7h. When compared to current methods, this approach is easier to handle and has high sensitivity, making it an ideal candidate for rapid detection and food safety assurance.

NAME: Anna Sophia Harrand

DEGREE PROGRAM: Food Science

FACULTY ADVISOR/COMMITTEE CHAIR: Dr. Martin Wiedmann

POSTER TITLE: Characterization of a Pathogen Strain Collection to Allow for Improved Validation of Sanitizer Efficacy in the Produce Industry

ABSTRACT: Effective control of foodborne pathogens on produce and in produce-associated environments requires science-based validation of interventions and control strategies. It has previously been shown that strains and/or genetic lineages of a pathogen may differ in their ability to survive different stress conditions. We hypothesize, however, that pre-growth conditions have a significantly greater effect on subsequent stress survival and stress response than genetic diversity within produce-relevant pathogens, e.g. linked to fresh produce outbreaks, recalls, and pre-harvest environment. A proposed strain collection was evaluated by experts from academia (n=6), government (n=5), and industry (n=8) with at least 10 years of experience in food safety for inclusion in the study. The final strain collection is comprised of *Salmonella enterica* (n=23), *Listeria monocytogenes* (n=11), *Escherichia coli* (n=13), and surrogate, indicator and index organisms (n=8). Strain diversity was assured by including 10 most common serotypes (*Salmonella*), representation of lineages (*L. monocytogenes*) and inclusion of the "Big six" (*E. coli*). All isolates in the final collection were characterized by whole genome sequencing using the Illumina Miseq platform and assembled de novo using SPAdes. Based on core single nucleotide polymorphism, a subset of representative strains for each pathogen group was selected. Strains were grown under different pre-growth conditions (e.g., mid log and stationary phase, high salt, low glucose) and exposed for 45 s to 40 ppm of peroxyacetic acid (*Salmonella*, *E. coli*) or 60 ppm of peroxyacetic acid (*L. monocytogenes*). Strains' ability to survive intervention treatments was determined by reduction of pathogen number. Strains selected for sanitizer treatment show higher range of log reduction based on pre-growth conditions (e.g., *Salmonella* log reduction of 2.8 to 5.7) as compared to strain diversity (e.g., *Salmonella* log reduction of 5.7 to 6.09). These data, along with the strain collection, will facilitate selection of appropriate strains and growth conditions for challenge studies. The study will provide a resource to scientifically justify using specific strain sets or cocktails or using strains grown under specific conditions prior to challenge or validation experiments.

ABSTRACTS OF STUDENT POSTER SESSION PRESENTED AT 2017 CONFERENCE

NAME: Samuel Reichler

DEGREE PROGRAM: PhD

FACULTY ADVISOR/COMMITTEE CHAIR: Martin Wiedmann

POSTER TITLE: New Insights into the Post-Pasteurization Contamination of Fluid Milk – Detection, Effects, and Pattern

ABSTRACT: We performed an 11 month HTST milk survey of 10 large Northeast US dairy plants; 4 collections per plant, multiple fillers and products represented. Post-pasteurization contamination (PPC) bacteria were found in 48% of samples (135/280), and were mainly *Pseudomonas*. PPC bacteria, including *Pseudomonas* spp., are responsible for high bacterial counts and serious sensory defects, including coagulation and off-flavors. Dairy plants need the knowledge and resources to effectively detect and track persistent PPC in milk.

NAME: Yiyi Zhang

DEGREE PROGRAM: PhD

FACULTY ADVISOR/COMMITTEE CHAIR: Christopher Watkins

POSTER TITLE: Non-destructive prediction of soluble solids and dry matter content using NIR spectroscopy in apples

ABSTRACT: The aim of this study is to develop NIR (near-infrared) models to predict soluble solid content (SSC) and dry matter content (DMC) at harvest, and to evaluate the feasibility of models to manage postharvest assessments of apple fruit. Fruit for this study was obtained from the Cornell orchard, NY. NIR spectroscopy (729 – 975 nm) was applied to 'Gala', 'Honeycrisp', 'McIntosh', 'Jonagold', 'NY1', 'NY2', 'Red Delicious', and 'Fuji' and partial least square (PLS) regression was used to build calibration models for predicting both SSC and DMC. Models were built for each cultivar as well as models that contained a combination of all cultivars. Within individual calibration models, coefficient of determination (R^2) values for calibration models ranged from 0.77 in 'NY2' to 0.85 in 'Red Delicious' for SSC, and from 0.60 in 'NY2' to 0.91 in 'Jonagold' for DMC. However, with regard to the combined cultivar calibration model, coefficient of determination (R^2) values for calibration are 0.88 for SSC and 0.94 for DMC.

Emmett R. Gauhn Memorial Award

***The Emmett R. Gauhn Memorial Award** is the Association's highest award. It is given to a member in good standing who has made a significant contribution to the NYSAFP or in their field of endeavor. 'Proudly' displaying this award is Ruth Riner. Presenting the award is Bob Kuhn. Both are with Upstate Niagara Coop.*

Established in 1955, the **Emmett R. Gauhn Memorial Award** is presented annually in memory of this Association's first President and leader in food sanitation. This award stands out as the association's highest honor, and respectfully so. It was Emmett R. Gauhn's visionary leadership, commitment and persistent work and effort that inspired the birth of this Association, and continues to inspire and guide the talent and charge of the Organization today and for many years to come.

This year's award is going to an individual who equals the best of them. With this Association's highest award, we are honored to recognize a true leader in food safety and educational support, including her tireless efforts and devotion to our affiliates and the entire organization. All this is with her foresight to improve the mission of training and networking statewide.

Cont'd on Page 31

Emmett R. Gauhn Memorial Award Cont'd

This year's award recipient is Ruth Riner. Ruth started her career at Sealtest Ice Cream and when it closed she moved to Upstate Milk. In 1998 she became the Director of the Membership Laboratory. Ruth is currently a member of the Rochester Area Sanitarians where she served as Past President 1989-1990 and the Council of Affiliates Delegate 1996-2000 and 2005. As a member of the NYS Association, she has served on the Laboratory Practices Committee for many years and has received the Howard B. Marlatt Memorial Laboratory Award in 2000. So at this time I would like to congratulate Ruth and thank her of all of her service to this organization.

Dr. Paul B. Brooks Memorial Award

*The **Dr. Paul B. Brooks Memorial Award** is presented in memory of Dr. Brooks to a member who has contributed to the welfare and progress of the affiliates. This year's recipient is Victoria Pedersen (L). Presenting the award is Becca Durant. Both are with NYS Dept. Ag & Mkts, Division of Milk Control.*

The **Dr. Paul B. Brooks Memorial Award** was established in 1956. It is awarded to an individual whose devotion to the cause of progressive sanitation serves as an inspiration and guide to all members of the NYSAFP. The member has to be in good standing with the State Association, an Affiliate and has contributed to the welfare and progress of the affiliate.

This year's winner of the Dr. Paul B. Brooks Memorial award is a person who has been invaluable to the Central NY Association for Food Protection. She graduated from Alfred State College with a degree in Agricultural Science. This led her to work for Dairylea Coop (now HP Hood) as a lab technician at the Vernon plant. I worked with her there over 30 years ago and was grateful that she was such a good and patient teacher.

Cont'd on Page 33

Dr. Paul B. Brooks Memorial Award Cont'd

When she brought her extensive dairy experience to the Department of Agriculture and Markets in 2005 I was very happy to be working with her again. In the time she has been with the Division of Milk Control she has been involved in NYS Fair cheese judging, Cornell HTST pasteurizer school, the laboratory split sample program, and she was named as Dairy Products Specialist of the Year in 2016. She is a Laboratory Evaluation Office and carries a heavy workload in her Region. In her spare time she is an amazing athlete - she started with 5K races a few years ago and has consistently challenged herself with halfmarathons, marathons, duathlons, and Olympic length triathlons.

She has been a member of the NYS Association and the Central NY affiliate for many years. She does most of the planning for all of our meetings - scouting out and setting up the venues, contacting speakers, and sending out the notices. She also works at the annual NYS Association meeting to organize and keep track of the Milk Bar. I am honored to present the Dr. Paul B. Brooks Memorial Award to Victoria Pedersen.

William V. Hickey Memorial Award

*The **William Hickey Memorial Award** is presented to a person who has made an outstanding contribution to the improvement of the food industry. The award was presented by John Luker, NYSA+M to Kathleen O'Connell, Wegmans. Accepting the award on Kathleen's behalf is James Baldwin (L).*

Established in 1979, the New York State Association for Food Protection **William V. Hickey Memorial Award** is designed to honor an individual who has excelled in the field of food safety and sanitation. Mr. William Hickey was the Executive Director of the Food and Container Institute and the first chairman of the Food Protection Committee.

One of the advantages of being a member of the New York State Association for Food Protection, Food Committee is that every year we are able to identify a leader in the food industry who has contributed greatly to the advancement of food safety throughout New York State. These individuals are then recognized at our annual conference and presented the Association's prestigious, William V. Hickey Memorial Award.

When I was asked to present to this year's recipient, I was honored by the opportunity. This year's winner was selected

Cont'd on Page 35

William V. Hickey Memorial Award Cont'd

unanimously by the Food Committee members, representing industry, academia and regulatory throughout New York State.

In describing William V. Hickey, for whom this award is named, it has been said that "his devotion to the food industry to improve the quality of foods continues to this day to serve as a guide to all members of the food industry and our Association." Our main criteria for an individual receiving the William V. Hickey Memorial award is that they must have made an **OUTSTANDING** contribution for improvement of food safety and sanitation in the food industry. Just to be clear, some synonyms for outstanding include, excellent, magnificent, superb, exceptional, and so on. This year's William V. Hickey Memorial Award winner meets and exceeds the award criteria.

This year's recipient, has and continues to, move the bar higher and higher, not only for the specific company involved, but also for the entire New York State food industry and its consumers. This individual is someone who understands the dynamic nature of the retail food business and the continuing demands for the latest and greatest by consumers, while at the same time assuring and maintaining the safety of all products involved.

Some comments made by this individual's colleagues include:

- *"Her dedication to food safety is unwavering. She is recognized as an Industry leader and I consider her an expert in Food Recalls" - Kim Bukowski, Cornell University – Dairy Extension*
- *"FANTASTIC nominee!" - Kathryn Boor, Dean, College of Agriculture & Life Sciences, Cornell University*
- *"She has always been very responsive to our investigations and her actions are always protective of public health." - Darby Greco, Chief Sanitarian, New York State Department of Health*
- *"Fully support – well deserving."
- Joe Corby, Executive Director, AFDO*
- *"She is truly a visionary leader who can set aside the competitive nature of the retail food business to work with commitment and passion toward continuously improving food safety in the industry as a whole." - Jim Baldwin, Director of Food Safety & Quality Assurance and Occupational Health and Safety, The Golub Corporation/Price Chopper Supermarkets*

Without further ado, it gives me great pleasure to award the New York State Association for Food Protections - 2017 William V. Hickey Memorial Award to Chief Food Scientist for Wegmans Food Markets, Inc., **Kathleen O'Donnell**.

Howard B. Marlatt Memorial Laboratory Award

The **Howard B. Marlatt Award** is presented to someone who has made a significant contribution in the field of dairy and food laboratory work.

This year's recipient is Christina Angell.

Presenting the award is Casey McCue. Both are with NYS Dept. A+M.

Cont'd on Page 37

Howard B. Marlatt Memorial Laboratory Award Cont'd

The **Howard B. Marlatt Memorial Award** is presented in memory of Howard B. Marlatt.

- Founder and Past President of the Orange County Sanitarians Association
- Member of the NYSAFP board at the time of his death, July 10, 1969
- Chairman of the Laboratory Practices Committee for three years.
- Established in 1972

The Howard B. Marlatt Memorial Award recognizes those individuals who have made an outstanding contribution in the field of dairy and food laboratory work and is selected by the Laboratory Practices Committee. NYSAFP membership is not required.

Dairy Products Specialist (DPS) I Christina Angell was awarded the prestigious Howard B. Marlatt Memorial Award this year for her continued dedication to the New York State Dairy Laboratory Program. Christina has spearheaded and managed the Split Sample Program for Analyst Proficiency on a statewide basis for more than five years and works with other states to provide split samples to their respective industry stakeholders. DPS I Angell has been instrumental in training new FDA accredited Laboratory Evaluation Officers (LEO's), has presented at numerous Laboratory Workshops around the state and serves as a critical member of field staff within the Division of Milk Control and Dairy Services (MC/DS) at New York State Agriculture and Markets. Christina is assigned to Region 5, which covers much of the Capital Region and surrounding counties.

Dr. Theodore H. Reich Memorial Award

*The **Theodore H. Reich Memorial Award** is presented to a person who has made an outstanding contribution as a dairy field person. **Dan Guido** proudly displays the award presented to him by **Todd O'Brien**. Both are with DFA.*

Dr. Theodore H. Reich was Division Supervisor for the Country Milk Section of the NYS Health Department, member of the Farm Methods Committee, Dairy Practice Council and Secretary of the Orange County Sanitarians Association. Dr. Reich passed away while serving December 1971.

Dan is the recipient of the 2017 award. In 1992, he was hired by DMS, now DFA. He has direct Regulatory responsibility for about 100 farms - some very large with multiple loads produced daily to the other end of spectrum – Amish. He gives exceptional attention to all. He takes his career seriously, still eager to learn, and loyal to the industry and the mission of his employer. A leader as evidenced through the numerous occasions, he offers assistance to anyone needing it. Also, he is the organic market liaison in New York. Dan

Cont'd on Page 39

Dr. Theodore H. Reich Memorial Award Cont'd

has always represented himself in a professional manner. He is respected by his peers and the farms that he has serviced. He has support from his biological family - wife and 2 children as well as his cooperative extended family. Dan has an interesting hobby - hang gliding. He is so experienced, he is an instructor.

Lifetime Achievement Award

The Lifetime Achievement Award was presented to Janene S. Lucia in recognition of her outstanding vision, dedication and commitment throughout her 27 years of service as Executive Secretary of the New York State Association for Food Protection. Presenting the award is David Bandler, a Past President and currently Cornell Coordinator for the Association.

RESOLUTION IN RESPONSE TO CHANGE

WHEREAS, Change is inevitable, and,

WHEREAS, Presidents of the Association have come and gone, (and to date there have been 90 of them), and,

WHEREAS, the Executive Secretary is the cement that holds the Association together...and there have been only nine of them! and,

WHEREAS, the current Executive Secretary has served 27 recent presidents...Many of them good, some not so good. (There is a list!) and,

Cont'd on Page 41

Lifetime Achievement Award Cont'd

WHEREAS, the current Executive Secretary has successfully provided the leadership and effort needed to keep the NYSAFP in the forefront of Food protection. (Not only as secretary but also as treasurer and meeting planner) and,

WHEREAS, the current Executive Secretary has decided to retire after 27 years in that position. (The longest serving in our 94 year history) and,

WHEREAS, The Executive Board has voted unanimously to create a special award, recognizing this awesome accomplishment.

THEREFORE BE IT RESOLVED, that JANENE S. LUCIA be recognized and applauded for her 27 years of continuous service, with the first ever New York State Association for Food Protection...
LIFETIME ACHIEVEMENT AWARD.

Presented at the 94th Annual Conference

George “Sid” Miller, Jr. Affiliate of the Year Award

The George “Sid” Miller, Jr. Affiliate of the Year Award is presented to one of the 9 NYSAFP affiliates each year to recognize excellence in their program. This year’s winner is the Western Association of Sanitarians. Displaying the award is Joel Bearfield, member of the affiliate. It was presented to him by Council Chair, Marsha Koerner.

The 2017 **George “Sid” Miller, Jr. Affiliate of the Year Award** is presented to the Western Association of Sanitarians.

One purpose of the Council of Affiliates Luncheon is to celebrate the local affiliate chapters of the New York State Association for Food Protection. Each year the Executive Board of the State Association reviews the work done by each “Affiliate” toward supporting the principles of sanitarians.

To qualify for the **George “Sid” Miller, Jr. Affiliate of the Year Award**, the affiliate must be active in the State Association. Other criteria considered for this award includes the group’s activity in conducting affiliate meetings and the recruitment of new members for the affiliate group, the State Association and International Association. Also considered are the types of programs that are presented to the local affiliate membership. The information for the award application is gathered and submitted by the local group through their delegate to the Council of Affiliates. The Executive Board of NYSAFP selects the winner and the award is presented at the Annual Council of Affiliate luncheon during the State Association’s Annual Conference. Announcement of the winning affiliate is made during the Annual Conference Awards Banquet.

Western Association of Sanitarians Activities during the Past Year:

- Thirty-eight (38) Western Association of Sanitarians members enjoyed networking and Buffalo’s “Favorite Hors d’oeuvres” at The Steer Restaurant January 12th. Sean Madden from the Western New York Tech Academy shared a presentation and led a discussion

Cont’d on Page 43

Affiliate of the Year Award Cont'd

regarding "Understanding Group Dynamics in the Workplace: Working with Others Successfully." Each of us had some key-learnings and will put them to good use! Yen On and Taylor Mann from CleanSlate demonstrated using a UV sanitizer on equipment. Always good to see what new technology is out there!

- An "Internal Auditing Techniques" seminar was conducted March 22nd, 2017 at "The Columns Banquets," in Elma. Twenty-eight (28) participants received training on: creating an audit program, how to hold an internal audit, corrective action management and how to use internal audits for continuous improvement. This course met the requirements of internal audit training under most GFSI programs – and certificates will be issued to successful participants. A variety of dairy & food manufacturers were represented including frozen vegetables, low acid, milk, cheese, cultured products, ice cream, confectionery, chocolate, chemical suppliers and third-party auditors. Kim Bukowski & Carl Moody, both of Cornell Cooperative Extension were the instructors.
- Carl Moody represented WAS at the Erie Community College Scholarship Luncheon April 21st. The recipient of the \$600 scholarship was John Castillo majoring in Biomanufacturing - Food Processing Track. The scholarship is to cover the cost of the 3 credit hour BT 128 – Food Safety and Sanitation course. We have committed to support this scholarship an additional two years.
- Executive Board Meeting scheduled for April 26th
 - ~ Discussed final details regarding Critical Issues and future training ideas. We will continue sponsoring scholarships for GCC & ECC however we also discussed creating a new scholarship for an employee of a "very small business" to attend one of the educational opportunities we sponsor and we are going to investigate sponsoring a scholarship for an Industrial Technology class.
 - ~ Discussed hosting a "mixer" so the "very small businesses" can get to know us (WAS) & what we offer.
 - ~ Discussed ideas for the Fall, January & Spring meetings.
- "Critical Issues" at the Terry Hills Golf Course in Batavia June 1st, 2017. Scheduled speakers were:
 - ~ Carl Moody, Cornell Coop. Ext. – "Developing a Food Defense Program Compliant with GFSI"
 - ~ Joe Dakin, Supply Chain Quality Assurance Manager, Wegmans – "Complying with the Transportation Rule"
 - ~ Casey McCue, NYS Ag & Mkts – "FSMA & Regulatory Update"
 - ~ Kathy Violette, NYS Ag & Mkts – "Complying with Upcoming Nutritional Labeling"

CONSTITUTION AND BY-LAWS

AS REVISED AND ADOPTED SEPTEMBER 18, 2013

(Revised 1-8-2017 - for vote by membership)

CONSTITUTION

ARTICLE I

Name

1. The name of this association shall be the New York State Association for Food Protection.

ARTICLE II

Objectives

1. The objectives of this Association shall be (1) to strive for continued improvement in the safety, sanitary, and nutritional quality of milk and food; (2) to provide educational opportunities in these areas through meetings and publications; (3) to promote greater uniformity of sanitary food, drug, and environmental regulations and their enforcement in the dairy and food industries; (4) to assist members in achieving these objectives.

ARTICLE III

Membership

1. ACTIVE MEMBERSHIP. Any person engaged in the various phases of the milk and food industries shall be eligible for membership in this Association whether employed by a regulatory agency, educational or research institution, quality control laboratory, or related industries. Active members shall be eligible to vote at meetings of the Association.
2. HONORARY LIFE MEMBERSHIP. The Association may extend Honorary Life Membership to members or non-members who have distinguished themselves in the fields of dairy and food sanitation and to members who have made a noteworthy contribution to the Association and fulfil the requirements as stipulated in the By-Laws, Article I, #2. Honorary life members shall be eligible to vote at meetings of the Association.
3. SUSTAINING MEMBERSHIP. Organizations whose objectives are in agreement with those of this Association shall be eligible for Sustaining Membership, but without voting privilege.
4. AFFILIATE MEMBERSHIP. Regional or local associations whose objectives are in agreement with those of this Association shall be eligible to group affiliation with this Association on conditions stipulated in the by-laws.
5. STUDENT MEMBERSHIP. Any student enrolled in a two-year, four-year or graduate program related to the dairy or food industry shall be eligible for membership in this Association.

ARTICLE IV

Officers

1. The officers of this Association shall be a President, President-Elect and Executive Secretary-Treasurer (hereinafter referred to as Secretary). The President shall gain office by succession from the position of senior at large board member. The Secretary shall be appointed by the Executive Board for an unlimited term. All other officers shall hold office for one year.

ARTICLE V

Administrative Committees, Editor, and Executive Secretary

1. EXECUTIVE BOARD:

(a) There shall be an Executive Board in the Association to consist of the President, President-Elect, Secretary (non-voting member), the last preceding president of the Association, the chairperson of the Council of Affiliates, a representative from Cornell University (non voting member) & hereinafter referred to as Cornell Coordinator), a Webmaster (non-voting member - selected by the Executive Board), and three other members, one elected each year at large by ballot at the Annual Conference

of the Association. Except for the Secretary, Cornell Coordinator and Council Chairperson, and Webmaster, six members of the Executive Board shall be officially connected with governmental agencies, educational institutions, or industry (representing dairy, food and related fields).

(b) When new members are elected to fill vacancies on the Executive Board, present members except the Secretary, Cornell Coordinator, Council Chairperson and Webmaster, shall move up in the line of succession and the new member (or members) shall take the junior position on the Board.

2. MEMBERSHIP COMMITTEE. There shall be a Membership Committee, with the chairperson appointed by the President.

3. AUDITING COMMITTEE. There shall be an Auditing Committee consisting of three members appointed to serve a three-year period. The senior member shall serve as chairperson; annually, the President shall appoint a new member.

4. NOMINATING COMMITTEE. There shall be a nominating committee consisting of the immediate Past President, as chairperson, the Council Affiliates Chairperson and a third person appointed annually by the President.

5. AWARDS COMMITTEE. There shall be an Awards Committee consisting of three members. Members will consist of: the Immediate Past President as chairperson, the Council Affiliates Chairperson, and a third person appointed annually by the President.

6. OTHER COMMITTEES. Unless otherwise provided for by vote of the members, the President shall have the power to appoint other committees to perform specific functions for the good and welfare of the Association and its members.

7. EDITOR. The Executive Board is empowered to employ an editor or editors to serve at the pleasure of the Executive Board with terms of employment, compensation, and duties as stated in the by-laws.

8. SECRETARY. The Executive Board is empowered to employ a Secretary to serve at the pleasure of the Executive Board with terms of employment, compensation, and duties as stated in the By-Laws.

9. WEBMASTER. There shall be an Association Webmaster (non-voting member) selected by the Executive Board.

ARTICLE VI

Council of Affiliates

1. There shall be a Council of Affiliates within the Association composed of a Chairperson and one representative from each affiliate association. Provision for additional representation from the affiliates on a quota basis may be made by the Executive Board on request by the Council of Affiliates. The Chairperson will be appointed by the Executive Committee to serve for three years.

2. A Code of Procedure may be adopted and amended by the Council of Affiliates to guide the Council in the discharge of its duties, but all adoptions and amendments shall be ratified by the Executive Board before becoming effective. When the Constitution or the By-Laws do not stipulate a mode of conduct or procedure for the Council of Affiliates or are not explicit in their intent the Code of Procedure shall govern.

ARTICLE VII

Amendments to the Constitution

1. Proposed amendments to the Constitution must be submitted in writing to the Executive Board at least sixty days prior to the Annual Conference of the Association.

2. The Executive Board shall consider all proposed amendments to the Constitution and present a report and recommendation to the membership.

3. The Executive Board shall instruct the Secretary to prepare copies of such proposed amendments and mail them to all members, or publish such proposed amendments in the official publication of the Association, in either case at least fifteen days prior to the Annual Conference.

4. A two-thirds vote of the members present at the annual business meeting shall be required to adopt amendments to the Constitution.

BY-LAWS

ARTICLE I Membership

1. **ACTIVE MEMBERSHIP.** Any person eligible for membership under the Constitution shall file an official application accompanied by the annual membership dues to the Secretary.

a. Any person having once become a member shall continue to be a member as long as the annual dues are paid. Any member who shall fail to pay the annual dues after notification by the Secretary that said dues are payable, shall be dropped from membership.

b. A member of the Association may be expelled for cause upon recommendation by the Executive Board after hearing.

c. The dues for active membership shall be established annually by the Executive Board prior to the Annual Conference.

d. Any active member, who is in good standing, may be eligible to be appointed to a committee or position and/or elected to the Executive Board.

2. **HONORARY LIFE MEMBERSHIP.** Honorary Life Membership may be considered by the Executive Board to qualified nominees after receipt of an application. It is not granted automatically to all members upon their retirement. The guidelines for Honorary Life Membership shall be (1) at least fifteen accumulative years of membership in the Association, (2) active membership for the last five years, (3) noteworthy contribution to the work of the State Association or an affiliate association, and (4) retirement from full time work in one's field; one may continue to work on a limited basis in the same field or full time in a different field.

(a) An Honorary Life Member, upon admission to such membership, shall receive an Honorary Life Membership certificate, signed by the President and Secretary and sealed with the seal of the Association. He/she shall also receive complimentary subscriptions to all Association publications.

(b) There shall be no charge for dues or Annual Conference registration for Honorary Life Members.

3. **SUSTAINING MEMBERSHIP.** Any business (individual, professional organization, partnership or corporation), desiring to become a member shall file an official application, accompanied by the annual membership dues, with the Secretary. The Executive Board shall act upon the application, and, if approved, the Secretary shall issue a certificate of Sustaining Membership. The membership fee shall be returned by the Secretary if membership is not approved.

4. **AFFILIATE MEMBERSHIP.** Any regional organization desiring to affiliate with this Association shall file an official application with the Secretary.

(a) The Executive Board shall act upon the application and, if approved, the application shall be referred to the Council of Affiliates for its approval. If approved by both bodies, the Executive Board shall direct the Secretary to issue a certificate of Affiliate Membership.

(b) An affiliate may be dropped from membership for cause by a majority vote of the Executive Board, and with approval of the Council of Affiliates. An opportunity to be heard must be granted an affiliate before disaffiliation may become effective.

5. **STUDENT MEMBERSHIP.** Any student eligible for membership under the Constitution who shall file an official application and whose application is certified by an Association member may become a member.

ARTICLE II Duties of Officers and Executive Board

1. **PAST-PRESIDENT** shall serve as chairman of the Nominations and Awards Committees. The Past President shall also update the History of the Association to include accomplishments during his/her tenure.

2. **THE PRESIDENT** shall preside at all meetings of the Association and the Executive Board. He/she shall examine and authorize payment of all expenditures approved by the Executive Board. He/she shall appoint all committee chairpersons at the first Board meeting subsequent of the Annual

Conference. When authorized by the Executive Board he/she shall make pro tem appointments to fill any vacancy on the Executive Board between Annual Conferences. He/she shall perform such other duties as usually devolve upon a presiding officer and any other duties and obligations required of him as President by the Constitution and By-Laws. He/she shall be the back-up (second [2nd] signature) for all NYSAFP checks, transfers and other financial matters in the event the Secretary/Treasurer is unavailable. Signature cards should be signed at the Annual Conference yearly by the incoming president. He/she must also be a member of IAFF in keeping with the Constitution & By-Laws of the International Association for Food Protection (formerly IAMFES), parent organization to the NYSAFP.

3. THE PRESIDENT ELECT shall perform the duties of the President in the latter's absence and shall succeed the President when the latter's term expires, or if he/she can no longer serve. He/she shall also serve as Program Chairman for the Annual Conference.

4. THIRD YEAR BOARD MEMBER shall be responsible for the Annual Conference, to include the Exhibitor Area and Local Arrangements Committee.

5. SECOND YEAR BOARD MEMBER shall be responsible for Annual Conference evaluations, and membership surveys.

6. FIRST YEAR BOARD MEMBER. Shall record the proceedings of the Association and directly coordinate with the executive secretary.

7. SECRETARY shall keep a list of members and collect all monies due the Association. He/she shall pay all bills authorized by the President and shall keep a record of the amount of each payment made for the Association and the name and address of the person or company so paid. He/she shall keep accurate records and shall make a detailed statement of the financial condition of the Association at the Annual Conference and shall make interim reports to the Executive Board when required. It shall also be the duty of the Secretary to assist the Executive Board in making arrangements in preparing the program for the Annual Conference. The Secretary shall obtain a bond sufficient in amount to cover the amount anticipated to be in his/her custody. The cost of such bond shall be borne by the Association.

8. THE CORNELL COORDINATOR shall coordinate the use of facilities and resources at Cornell University to assist the Association in accomplishing its mission.

9. THE EXECUTIVE BOARD shall have the full management of the affairs of the Association when the Association is not in session. The duties, in addition to others mentioned herein, shall include:

(a) To act for and in behalf of the Association in administrative, legislative, educational, or other capacities as the Association may direct, or on its own initiative, between Annual Conferences. It shall report such action at the next Annual Conference.

(b) To direct the administrative work of the Association including all matters relating to the Annual Report, the Newsletter, and other publications of the Association, and to collaborate with other groups and organizations.

(c) To appoint a delegate to serve as liaison between the NYSAFP and the International Association of Milk, Food and Environmental Sanitarians. He/she will be requested to attend New York Association board meetings when appropriate and to present a report at the Annual Conference business meeting.

(d) To authorize the President to make pro tem appointments to fill any vacancy in office or in elected committees between the meetings of the Association when such vacancy is caused by death, disability or other cause. Any individual appointed on a pro tem basis that is interested in a permanent seat on the board must run at the next annual meeting general election.

(e) To direct the Editor in the performance of his duties with respect to the Newsletter and other Association publications.

(f) To review and ratify Council of Affiliates action and to determine the basis for acceptance to membership and the numerical representation on the Council.

(g) To authorize employment of necessary clerical help by the Secretary and the Editor.

(h) To fix compensation and to authorize payment for services performed by (1) the Secretary, (2) the Editor, and (3) any clerical help.

(i) To authorize necessary expenditures by the Association, committees and the Council of

Affiliates for the current Association year.

(j) To fix the time and place of the Annual Conference.

(k) To fix the registration fee of the Annual Conference and to determine the monies to be allotted to the committee on local arrangements for expenses at the Annual Conference.

(l) To designate the means and method of balloting for the election of officers and other purposes.

(m) To designate an official publication(s) of the Association.

(n) To establish and grant awards, when warranted for meritorious service, to members who have distinguished themselves, and to prescribe rules and conditions for the bestowal of such awards.

(o) To grant Honorary Life Memberships.

(p) To select the recipient of the George "Sid" Miller, Jr. Affiliate of the Year Award.

(q) To execute the policies of the Association and to report at the next Annual Conference to the Association any action taken that was not specifically authorized.

ARTICLE III **Council of Affiliates**

1. THE COUNCIL OF AFFILIATES shall have these duties and privileges:

(a) To meet during the period of the Association Annual Conference and at any other time and place as the chairperson of the Council may deem necessary.

(b) To act as a forum where representatives of the affiliates and other Council members may present their ideas and problems in the milk and food industries.

(c) To make general recommendations to the Executive Board on matters of local and general significance in the milk and food industries.

(d) To aid the Association and the Executive Board in executing the policies of the Association.

(e) To make a report of its activities to the Executive Board at the Annual Conference.

2. THE CHAIRPERSON OF THE COUNCIL shall preside at all meetings of the Council of Affiliates. He/she shall perform such duties as ordinarily devolve upon a presiding officer. He/she may call special meetings of the Council if deemed necessary. He/she may appoint Council committees but subject to approval of the Executive Board to avoid overlapping and duplicating Association efforts. He/she shall be governed by the Constitution and By-Laws and the Code of Procedure in the performance of his/her duties. He/she shall be a voting member of the Executive Board.

ARTICLE IV **Duties of Certain Committees**

1. AUDITING COMMITTEE. It shall be the duty of the Auditing Committee to examine and audit the books of the Association and to present a report of this audit at the Annual Conference of the Association. This committee, with the approval of the Executive Board may engage the services of a professional accountant to make the audit.

2. EDUCATION AND PROFESSIONAL IMPROVEMENT COMMITTEE. It shall be the duty of this committee to coordinate and establish educational and professional improvement throughout the dairy, food and related industries, in accordance with the objectives of the Association. It shall also be the duty of the committee to select the recipient of a meritorious service award to a member distinguishing themselves in the development, future and improvement of the NYSAFP for the presentation at the Annual Conference.

3. NEW YORK STATE FARM METHODS COMMITTEE. It shall be the duty of this committee to study, make recommendations, and promote sanitary milk production in New York State; to assist the producers, regulatory agencies, and processors in evaluating and solving problems; and to further the establishment of uniform requirements and interpretations consistent with the sanitary requirements in other northeast states. It shall also be the duty of this committee to select the recipient of the annual Dr. Theodore H. Reich Memorial Award for presentation at the Annual Conference.

4. **FOOD COMMITTEE.** It shall be the duty of this committee to explore and evaluate the food protection activities in New York State, to determine such weaknesses or failures as may exist now and later, and to develop and promote a competent, continuous and uniform program aimed at providing the consumers with foods of a safe, sanitary quality. It shall also be the duty of this committee to select the recipient of the annual William V. Hickey Memorial Award for presentation at the Annual Conference.

5. **LABORATORY PRACTICES COMMITTEE.** It shall be the duty of this committee to study laboratory procedures and technical problems of current interest to the milk and food industries; to evaluate both published and unpublished data; and to present conclusions which will be helpful to our membership. A major activity of the committee is to plan and execute a laboratory session at the Annual Conference on topics of current interest to milk and food laboratory personnel. This committee may be composed to two sub-committees representing the milk and food industry. It shall also be the duty of this committee to select the recipient of the annual Howard B. Marlatt memorial Award for presentation at the Annual Conference.

6. **MEMBERSHIP COMMITTEE.** It shall be the duty of this committee to take steps to increase the membership of the Association and to stimulate continuance of membership therein.

7. **SUSTAINING MEMBERSHIP COMMITTEE.** It shall be the duty of this committee to take steps to increase the industrial and other professional organization membership, and to stimulate continuance of membership therein. They shall be guided by Article I, Section 3 of these By-Laws.

8. **NOMINATING COMMITTEE.** It shall be the duty of this committee to present a slate of officers and other elective personnel to the Association at its Annual Conference and to recommend to the Executive Board means of balloting.

9. **AWARDS COMMITTEE.** It shall be the duty of this committee to select the recipients of the Dr. Paul B. Brooks Memorial Award, and the Emmett R. Gauhn Memorial Award, and to assure that all award recipients are selected for presentation at the Annual Conference.

10. **LOCAL ARRANGEMENTS COMMITTEE** – There shall be a Local Arrangements Committee and its duty will be to assist, prepare and help coordinate our Annual Conference. They shall coordinate the Spouses Hospitality Program, manage the Dairy Bar, monitor the conference rooms, coordinate session door prizes and assist the Executive Secretary with conference operations. The Local Arrangements Chairperson shall meet with the Executive Secretary regarding the specific hotel and conference details and responsibilities prior to the fall conference.

11. **MISSION AND PLANNING COMMITTEE** – Whereas, the NYSAFP recognizes the need to develop a strategic plan for the future of the Association,

Whereas, a committee shall be established; the function of this committee shall be to provide recommendations for the strategic planning for future of the organization and report at the annual conference an innovative vision of where the committee believes the association should be for the next three to five years, and

Whereas, this committee will address membership, financial and organizational issues, and will solicit ideas from the general membership via surveys, discussions with the executive board and a report presented at the annual conference, and

Whereas this committee shall consist of the current President, the immediate past President as chair, and a minimum of three members to be appointed by the current President,

Therefore, be it resolved that the Association form a standing committee to address a strategic plan for the future of the Association, and shall be named the Mission and Planning Committee.

12. **SCHOLARSHIP COMMITTEE.** There shall be a Scholarship Committee consisting of a chairperson appointed by the President, the 2nd year board member, and a minimum of 2 other committee members as assigned by the chairperson.

It shall be the duty of the scholarship committee to review and update criteria for the NYSAFP Scholarship and application; to advertise and send applications to the appropriate educational institutions; and to coordinate fundraising activities (at the AC and other NYSAFP/committee meetings). The committee shall review scholarship applications received and select winners for presentation at the Annual Conference.

The Executive Board shall determine the number and dollar amount(s) of scholarship(s) awarded annually based on the committee's recommendations.

ARTICLE V
Association Meetings

1. ELECTION OF OFFICERS AND BOARD MEMBERS. The President shall at the Annual Conference direct the election of at least one member of the Executive Board. Voting shall be by ballot. A minimum of two tellers shall be appointed by the President to collect and tabulate the ballots.

(a) The Annual Conference of the Association shall be held at a time and place designated by the Executive Board.

(b) Special meetings of the Association may be called by the Executive Board. In such event, the Secretary shall mail the notice of such meetings to all members, or publish the same in the official publication of the Association, in either case at least fifteen days prior to such meeting.

(c) Thirty-five (35) members shall constitute a quorum for the transaction of business. Voting by proxy shall not be permitted; a majority vote shall govern unless otherwise stated.

(d) Roberts' Rules of Order shall govern the procedures at all meetings.

ARTICLE VI
Executive Board Meetings

1. The Executive Board shall meet:

(a) At the Annual Conference and a minimum of three other times each year, one of which should be a joint meeting with the Council of Affiliates and committee chairpersons.

(b) At any other time deemed necessary by the President; and

(c) When requested by three or more members of the Executive Board in conformity with the following provisions.

2. The President shall fix the time and place of an Executive Board Meeting and shall notify the Secretary of such meeting. The Secretary shall immediately notify the Executive Board of the time and place of the meeting.

3. A majority of the Executive Board shall constitute a quorum.

4. The President shall, at all times, endeavor to select a meeting place accessible to all members of the Executive Board.

5. Notices of every meeting shall be in writing, shall state the date of mailing, the hour, date, and place of meeting.

ARTICLE VII
Amendments to the By-Laws

1. These by-laws may be altered or amended at any meeting of the Association by a majority vote of the members present.

Pass It On!

Represented among the over 300 members of the **New York State Association for Food Protection** (*formerly New York State Association of Milk and Food Sanitarians*). Sanitarians are people from a broad spectrum of the Food Industry, including milk cooperatives; dairy and food processing plants, regulatory agencies, colleges, food distribution companies, dairy and food supply and equipment dealers, control laboratories, institutional caterers, restaurant management companies and others. These are people concerned with the sanitary and nutritional aspects of the total food industry, interested in promoting greater uniformity in food regulations, and who are seeking to keep informed about the latest developments in their field of work.

As a further aid in meeting these objectives, many members also join the **International Association of Food Protection**, parent organization of the Association.

What does the Association Offer?

1. Membership in a professional society at the state and international level.
2. Twelve local affiliates in different parts of the state which provide opportunities for each member to participate to the extent desired.
3. Educational opportunities through talks, films, forums, and exhibits presented at the annual two-day conference in September and at affiliate meetings.
4. Publications which will help keep you informed. Newsletters are sent to all members twice a year. An additional Annual Report issue includes a list of members' names and addresses, abstracts of papers presented at the annual conference and other reports.
5. Opportunities to participate on Association committees. These include Food, Dairy and Food Industry Equipment, Farm Methods, Education and Professional Improvement, Laboratory Practices, and others.

How to Become Part of it?

All who share the concerns of the Association and who would like to enjoy its benefits are invited to join. A membership application is on the next page.

Application for Membership
NEW YORK STATE ASSOCIATION
FOR FOOD PROTECTION

*(Formerly New York State Association
of Milk and Food Sanitarians)*
